 Patent Examiner
 Art Unit 2813

This Office action is in response to applicant's amendment filed on 20 October 2005.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below to update the status of the related applications. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

In the amendment to the specification filed on 20 October 2005, after "December 20, 2001", insert --now U.S. Patent No. 6,670,645,--.

Response to Arguments

2. Applicant's arguments, see pages 5-7, filed on 20 October 2005, with respect to claims 12-16 have been fully considered and are persuasive. It is agreed that the prior art of record does not teach, suggest, or provide motivation for an iridium compound

Art Unit: 2813

that includes phenylpyridine ligands with one fluorine substituent on the phenyl ring and one trifluoromethyl substituent on the pyridine ring as claimed in independent claims 12-13. Accordingly, the rejection of claims 12-16 under 35 USC 103(a) has been withdrawn.

Allowable Subject Matter

3. Claims 12-16 are allowed.

4. The following is an examiner's statement of reasons for allowance: Claims 12-16 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, an iridium compound (or, regarding claims 14-16, an electronic device that includes the iridium compound) that is complexed to two 2-phenylpyridine ligands, one phosphine ligand, and one chlorine ion, wherein the 2-phenylpyridine ligands have identical structures that include a fluorine substituent at the R7 location of the phenyl ring and a trifluoromethyl substituent at the R3 location of the pyridine ring (refer to structure (I) on page 2 of the specification for the general structure of the 2-phenylpyridine ligand).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
